

MEERA IYER

ROBOTICS & AI DEVELOPER

meera.iyer@example.com | +91 90000 22222 | Bengaluru, India | linkedin.com/in/meera-iyer-robotics | github.com/meeraiyer

WORK EXPERIENCE

Robotics Software Intern – Example Automation Labs

Mar 2026 – Jul 2026

- Developed computer-vision checks for a packaging line that cut mis-labelled boxes by 40%.
- Built a digital-twin dashboard showing live robot cell status for floor supervisors.
- Researched predictive-maintenance signals for industrial arms using vibration data.

PLC Programming Intern – Example Industrial Training Centre

Aug 2025 – Feb 2026

- Programmed and tested PLC ladder logic for 4 automation rigs, including a conveyor sorter and a press.
- Wrote technical documentation and test reports for each completed rig.

PROJECTS

Warehouse Picker Arm Simulation [GitHub](#) ↗

Oct 2025 – Dec 2025

Isaac Sim · Python · ROS 2

- Simulated a 7-DoF arm picking mixed items from bins, controlled by a custom Python ROS 2 node.
- Implemented joint-space control and gripper sequencing with a 94% pick success rate in simulation.

Ship Detection in Satellite Images [GitHub](#) ↗

Jun 2026 – Jul 2026

PyTorch · Object Detection · OpenCV

- Trained an oriented object detector on aerial imagery and evaluated it with mAP, precision and recall.

PUBLICATIONS

Stability-Aware Grasp Planning for Mobile Manipulators in MuJoCo

2026

Example International Robotics Conference (ExRC 2026) · Paper ID: EXRC-2026-0417

- First-author paper proposing a MuJoCo framework that adds centre-of-mass constraints to grasp planning, improving task success over a baseline controller.

TECHNICAL SKILLS

Languages : Python, C++, C#

AI / ML : Deep Learning, Machine Learning, Computer Vision

Robotics : ROS 2, NVIDIA Isaac Sim, MuJoCo, OpenCV, Linux

Automation : PLC Programming, Pneumatics

Tools : Git, GitHub, Docker

EDUCATION

Example University of Technology, Bengaluru, India

Aug 2024 – Present

B.Tech in Robotics and Artificial Intelligence | CGPA: 8.91 / 10.0

Example PU College, Bengaluru, India

Jun 2022 – May 2024

Higher Secondary Education — Physics, Chemistry, Mathematics, Computer Science | Percentage: 94.2%
